Education

Southern Illinois University Edwardsville (SIUE)
Bachelor of Science in Computer Management & Information Systems
Minor: Computer Science

Edwardsville, IL
Cumulative GPA: 3.6
Expected: December 2021

Coursework

- Intro to Computing I & II – Java
- Intro to Computing III – C++
- Database & Web System Development
- Structured Systems Analysis
- Statistical Analysis for Business Decisions

Skills

- Java
- C++
- C#
- SQL
- ServiceNow
- HTML
- CSS
- PHP
- JavaScript / jQuery
- Microsoft Office & SharePoint

Work Experience

Ameren Services – St. Louis, MO

IT Service Management Co-op

May 2020 – Present

- Work in the ServiceNow Performance Analytics module to create dashboards and widgets to track Key Performance Indicators
- Creating a design concept for the ServiceNow Self-Service Portal with HTML, CSS, and JavaScript.
- Created and maintain an informational SharePoint site for the ITSM department
- Worked with process managers (change, incident, problem, configuration, and service catalog) to create a checklist for project leaders to verify that their team is properly prepared for their projects to go live and are capable of maintaining them.

True Manufacturing – O'Fallon, MO

Co-op Software Developer

January 2020 – March 2020

- Developed an Epicor ERP dashboard application based on a complex parameterized SQL query to pull data on customer orders from over a dozen Epicor database tables to allow the customer service department to quickly track customer orders
- Developed a reusable SQL script to quickly insert thousands of unentered invoices into Epicor database tables
- Fixed bugs in and rewrote several existing Epicor dashboard applications

Projects

Inventory Management System & POS System (C++ – Independent project)

- Developed detailed inventory management system application built on a custom dynamically allocated array, and a POS system application to maintain a perpetual inventory system with the inventory file
- Built on previous experience dealing with sorting, file I/O and formatting, and gained experience with pointers, dynamic memory allocation, and run time type identification

Super Order Tracker (C# & SQL – True Manufacturing)

- Developed an application in the Epicor ERP to collect information on customer orders using a complex parameterized SQL query selecting data from over a dozen tables and displaying the information and allowing for filtering using the C# programming language
- Went through all stages of agile development including grooming, planning, development, deployment, and maintenance

Honors & Activities

The Computer Association of SIUE

Fall 2018 – Present

- Enhance understanding of various computer concepts, languages, and frameworks not taught in the typical classroom setting such as Git and Docker
- Attend discussions and open forums with guest speakers from significant technology companies

Cougar Pride Scholarship

Fall 2017 – Present

- Awarded the Cougar Pride Scholarship for previous academic performance and maintaining a GPA above 3.0
